New Years Bash — 3	7th of February 2010
Numb Thumbs Finals Bash — 4	7th of March 2010

The Race days will run as follows :

The start of the day will be when everybody is full of Tea or Coffee and ready for the off. We will start with drivers briefing with a complete Round of Mono, Hydro, Eco & Cat Classes. After the morning races we will have open lake time for all to test and get some lunch, before we start the afternoon races again a full Round of Mono, Hydro, Eco & Cat Classes. The lake will then be open for testing and fun until its dark,

All races count for the title for each class.

That means to a maximum of 8 races are all added together to find the winner, so it might not be the fastest just the most consistent who wins.

So as all race results are added together, finder bashing taking out a fellow racer will be sorted out in a unique way. I will tell all on the first drivers briefing.

Any racer who has Public Liability Insurance is welcome.
